How do I find a cache?

There is no need to dig, climb, damage property, or even go inside. All caches are outdoors and above ground. If you need a hint, ask a librarian!

Where can I find more?

Visit Geocaching.com or download the Geocaching app for hints, easier navigation, and many more caches.

What's a micro cache?

All library cache containers are less than 100mL. Keep your eyes peeled, some caches are disguised as other objects! Some examples are pictured below.
